

## MAPS Pool Survey 1 – opened at beginning of April 2023

We had 11 respondents. Data shown in the attached for 10 respondents (my bad for picking the wrong survey tool!). For the people that responded, we learn that

1. The pool is very highly valued
2. Heating overwhelming believed is the best improvement, then BBQ area, then extended opening hours
3. Apart from heating, the following were highly rated for these user groups:
  - a. for seniors, hydrotherapy and access to main pool were the next two highest rated aspects to increase use
  - b. for families, BBQ area, Shading in toddler pool, swim club and lessons, and play area in the precinct were highly rated
  - c. for young people (15-25 yrs), extended opening season and extended opening hours were the most highly rated aspects
4. Free entry wasn't thought to be a big decider on what would increase pool use
5. People who answered the survey go mostly to the pool with their kids and for exercise

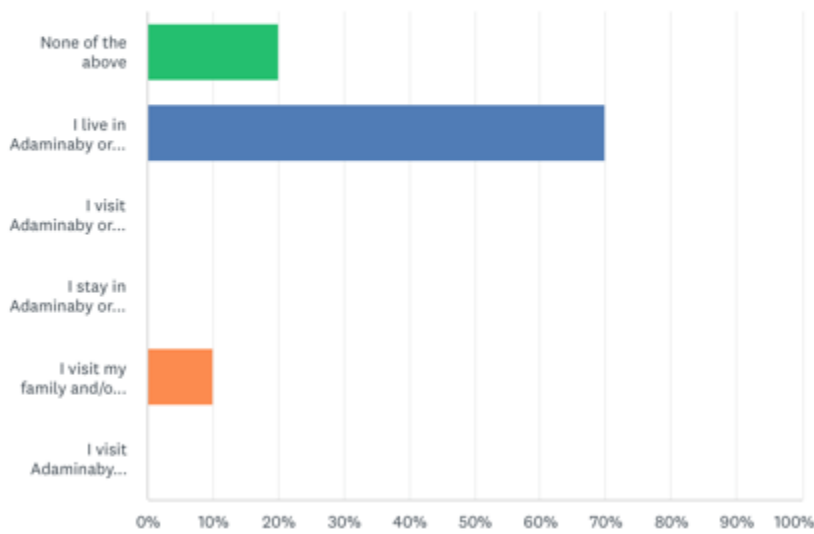

### Some information about you - your age range

Answered: 9 Skipped: 1

## How can the pool encourage young families to visit and live in Adaminaby? Or would increase enjoyment for the young families who already live here?

Answered: 8 Skipped: 2

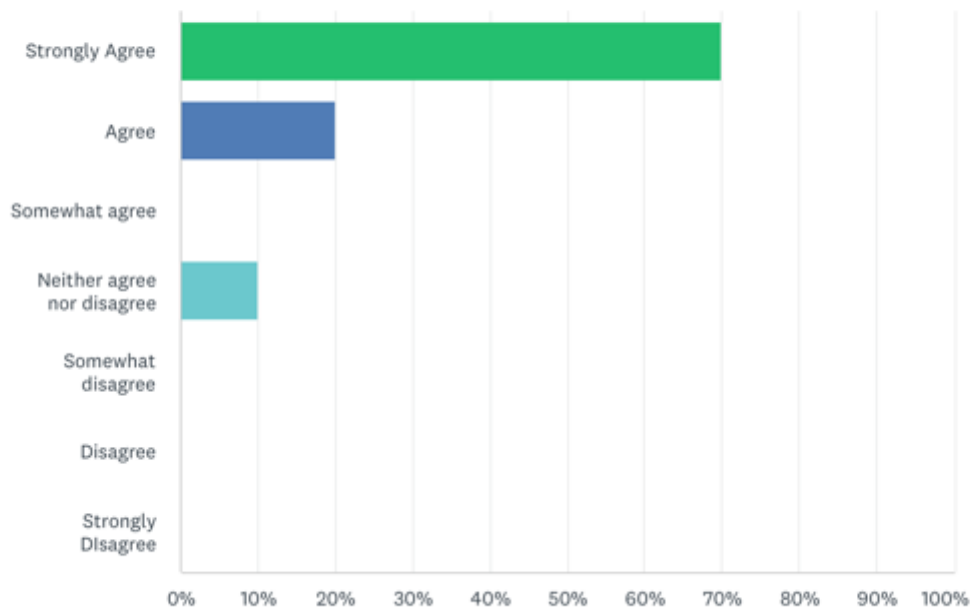

Pools are important facilities for young people (focussing particularly on 15-25yr olds), what changes would enhance the pool for use by young people who live in Adaminaby or visit?

Answered: 7 Skipped: 3

If we could do one thing for our pool, heating is the best improvement to enhance enjoyment by all of the community and visitors

Answered: 10 Skipped: 0

The pool is an important recreational facility for the community of Adaminaby and district, and those who visit the town and its surroundings for work and recreation.
